INTRA KFT

### SEMI AUTOMATIC FOLDER GLUER MACHINE

It is corrugated board converting equipment for case forming, which is designed of manual fold and feed, and automatic glue application on glue lap and compression forming, suitable for single wall and double wall board. It is ideal substitute for stitcher.

#### Features:

1. Lift feed table with footswitch control.
2. Manual fold and feed, automatic glue application on glue lap.
3. Idle wheel glue application, with self flow compensation, ensures no glue breaking during running.
4. Side baffles squaring, with wind compression forming, provides regular case forming and strong bonding.
5. Single case ejecting or stack ejecting are available. With counter, stacking up to preset value makes binding and output statistics easy.

Specifications	SG-2800
Max size of carton sheet (mm)	1300 x 2800
Min size of carton sheet (mm)	260 x 600
Dimension (mm)	4300 x 1700 x 2000
Max size of gluer ear (mm)	35
Maximum thickness of folded paper (mm)	14
Height of feeding (mm)	900
Max Speed (pcs/min)	40
Weight (kg)	1350
Power (kw)	4
